- excellent kinking resistance
- doesn't absorb dirt, grease and other contaminations
- easy for cleaning

ULTRA HYGIENIC[®] Hose

Color coding

Use different hose colors for different zones
(High risk, Low risk, Logistic, etc.).

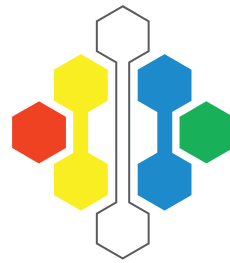

Use color coded hoses to avoid cross contamination.

Use color coded hoses for mobile satellite stations.

Use different hose color for sewers clening.

ULTRA HYGIENIC[®] Hose

All ULTRA HYGIENIC[®] hoses are available with different types of Crimped and Twisted Fittings. Twisted Fittings are designed taking into account the hose wall thickness and diameter which totally eliminates the possibility of leaks.
