 Basic tools are enough

 Self-assembly

 No need to remove the hose from the hose reel

 Time saving

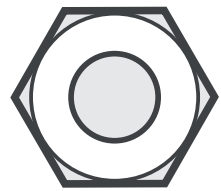

# Stainless Steel Twisted Hose Fittings

All Stainless Steel Fittings are designed taking into account the hose wall thickness and diameter which totally eliminates the possibility of leaks. In our offer you can find two types of Twisted Fittings:

- for ULTRA HYGIENIC® Hose (Central Cleaning System)
- for Low Pressure Hose (City Water Network)

All of them are available with both External and Internal threads.
